BUY BITCOINS WITH PAYPAL & CREDIT CARDS!

We all know that Paypal is one of the trusted as well as popular modus operandi for online transactions these days. Paypal is everywhere now as many merchants and traders have adopted it amicably. Bitcoins are also another medium of making online transactions making a place in the market. It means that Bitcoins is an another form of digital currency which depletes the need of using physical or hard money. However, there is one question which is very closely associated with bit Paypal and Bitcoins i.e. **How to buy bitcoins with Paypal?**

People who have used Bitcoins and Paypal says that it is really very hard to bring home Bitcoins by using Paypal. If we take a glance at the previous track record of buying Bitcoins via Paypal people has faced many inconveniences. Even there are many merchants which do not accept Paypal. The reason behind this behavior is rehashed situations where someone pays for Bitcoins with Paypal, gets Bitcoin and then fraudulently whines to Paypal that they never received the coins. It is said that Paypal over and over again Paypal favors fraud merchants so most of Bitcoin trades will treat this system as a pool of duplicity.

However, that does not mean that you cannot buy Bitcoins with Paypal and sell them at a high price for e.g. localbitcoins, ebay etc. The answer to query of how to buy bitcoins with paypal are through two mediums Virwox and CoinMama – the downside is higher commision that you need to pay – but its by far the easiest way to buy bitcoins using Paypal or Credit cards:

you should defiantly contact the support of virwox.com / skrill to find out why your card is not being accepted.

Couldn't agree more. The only way that virwox support will contact you back is if you're very defiant. I mean get in their faces and be extremely defiant!

Otherwise, they won't answer.

You need to set a wallet somewhere (some exchange or local wallet on your computer) in order to have an address – or just send them directly to where you want to pay with bitcoins (they will provide address obviously...) or you can just leave them in your virwox account until you will have an address.

Uhh you need a good CC? I know exactly what you need to do.

- 1.) Get a job
- 2.) Pay your bills on time
- 3.) Apply for a "Good" Credit Card
- 4.) Wait a few weeks
- 5.) Open envelope containing good CC
- 6.) Use it to buy some admin
- 7.) Make sure you pay bill with your own money

Seems a huge hassle to me, also pretty sure there will be hefty commissions to pay somewhere through that process. If you want anonymity, I suggest using local bitcoins. You can buy with cash in person, cash deposit or bank transfer.
